## **DETAILED ACTION**

## Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1-38, drawn to telephone system comprising a base unit and handset, classified in class 455, subclass 426.1.
- II. Claims 39-51, drawn to a cellular telephone, classified in class 455, subclass 88.
- III. Claims 52-55, drawn to a cellular telephone, classified in class 455, subclass 567.
- IV Claims 56-66, drawn to a cellular telephone, classified in class 455, subclass 418.
- V Claims 67-71, drawn to a cellular telephone, classified in class 455, subclass 420.

The inventions are distinct, each from the other because of the following reasons:

Inventions Group I-V are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention Group V has separate utility such as remote program control. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 2683

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
